

DEBT\$NET MILLENNIUM THE FUTURE OF COLLECTION SOFTWARE

Let us introduce you to Millennium! The Millennium platform, integrated within Debt\$Net Prestige 23, is a modern, secure, and adaptive system. It uses cutting-edge software languages and a component-wise, adaptable architecture that is maintainable and secure by default. Launched from a menu selection within Prestige 23, DebtNet\$Millennium centralizes reporting, operational integrations, and secure configuration.

Millennium Engines

Millennium engines offer report building functionality, a reporting center, mass data updating and another approach to mass account upload. Data at your fingertips allows you to analyze data your way. With Millennium engines, future technology options are endless.

API Integrations

The ability to quickly interface with new products, services and partners will allow you to utilize new technology quickly, staying ahead of the pack. We have already started developing API integrations within Millennium with industry partners like Applied Innovation and TCN.

Millennium is available to all Prestige 23 users on support. There is no downtime associated with our free installation; it can be performed while the agency functions as normal. When preparations are complete (potentially only a few hours), DebtNet\$Millennium is integrated into the existing Debt\$Net system, totally hassle-free.

DebtNet\$Millennium was premiered during the February User Forum. Access the recording here: [February User Forum](#) utilizing this passcode: **8GHM=U3u**. Or reach out to schedule a one-on-one demonstration to see the power of this new engine yourself.

Prestige 23 New Feature Spotlight

Past Statute Processing

Accounts going past statute, or nearing the statute of limitations, is always a concern. Our February New Feature for Prestige 23 grants new tools to help alleviate this important data management function.

The Past Statute Processing feature identifies all the past statute accounts and updates account fields based upon the type of expiration. It can update the account status, cancel date, collector, and account notes. There are two modes to the feature – regular and warning. The regular mode will update accounts that have already expired. The warning mode updates accounts soon to expire, with the time buffer set by state.

This feature adds configuration fields to the State and Agency Restriction Form as well as utilizing a unique client Extended Reference.

Additionally, there is a menu selection created for processing.

When configuring the past statute processing, the state can be determined by the debtor's current state or the client's STAT extended reference. Expiration dates are also configured based upon the date incurred, last payment date, or the delinquency date.

State	Category	Months
CA	MEDICAL	99
CA	RETAIL	12

If you are currently on Debt\$Net® Prestige 23, please reach out to Technical Support to install any of the new features. Not yet on Prestige 23? Please contact Julee Warner at 1-800-552-8397 or julee@debt.net.

Debt\$Net® User Forum Dates

Mark your calendars and join us for our virtual dates

Our virtual User Forums are a fantastic way to share your needs, ideas and hear from other Debt\$Net Users. Find out what the next Prestige 23 New Feature will be! Can't make the forum one month? RSVP anyway and we will send you a recording of the meeting.

Tuesday, February 24th Recording

2026: The Year to Upgrade

Take advantage of new technology to optimize your Debt\$Net® version

In 2025, TCM released seven new features in Prestige 23. In 2026, we are on track to double that number! As you begin planning and budgeting for 2026, now would be the time to incorporate upgrading Debt\$Net® to take advantage. Upgrade costs will vary based on current version and custom programming needs. Working with you, we can put together an upgrade package that meets your technological and budgetary requirements.

Up-coming In-Person Events

Visit with Debt\$Net® at Industry Expos

We would love to see you at the following in-person industry events. Stop by our table or booth and say hello:

ACA 2026 Annual Convention & Expo

July 22-24

Orlando, FL

The Debt\$Net® Newsletter is published by The Computer Manager, Inc. and is distributed to our clients and prospective clients.
