

Celebrating a Year of Innovation and Advancement!

The past 12 months have marked an exciting new era for Debt\$Net®. Our top priority has been moving Debt\$Net® into the future, and together with our users, the Debt\$Net® team has advanced product development at an exceptional pace.

Over a dozen new Prestige 23 features released

Starting in August of 2025, our goal was to develop and release at least one new feature for Prestige 23 each month. At no extra cost for our users! User feedback, industry trends and optimization were the driving forces behind the new features. Not only did we meet our goal – we surpassed it! Review the comprehensive list below:

- | | | |
|---|--------------------------------------|---|
| ✓ New Collector Productivity Report | ✓ Nightly Process Module | ✓ Positive Payment Export File |
| ✓ Additional Note Entry Via Mass Account Change | ✓ Reassigned Number Database Module | ✓ New Client Extended Search Form |
| ✓ Expanded Debtor Cross Links | ✓ Enhanced Debtor Notes | ✓ Transaction Type Posting Expansion |
| ✓ Automated Transaction Hold Upgrade | ✓ Past Statute Processing Feature | ✓ Base Working Screen Account Color Highlighting |
| ✓ Enhanced Multi Month Recovery Report | ✓ Upgraded Debtor Contact Management | ✓ Expanded Account Business Category Field Capability |

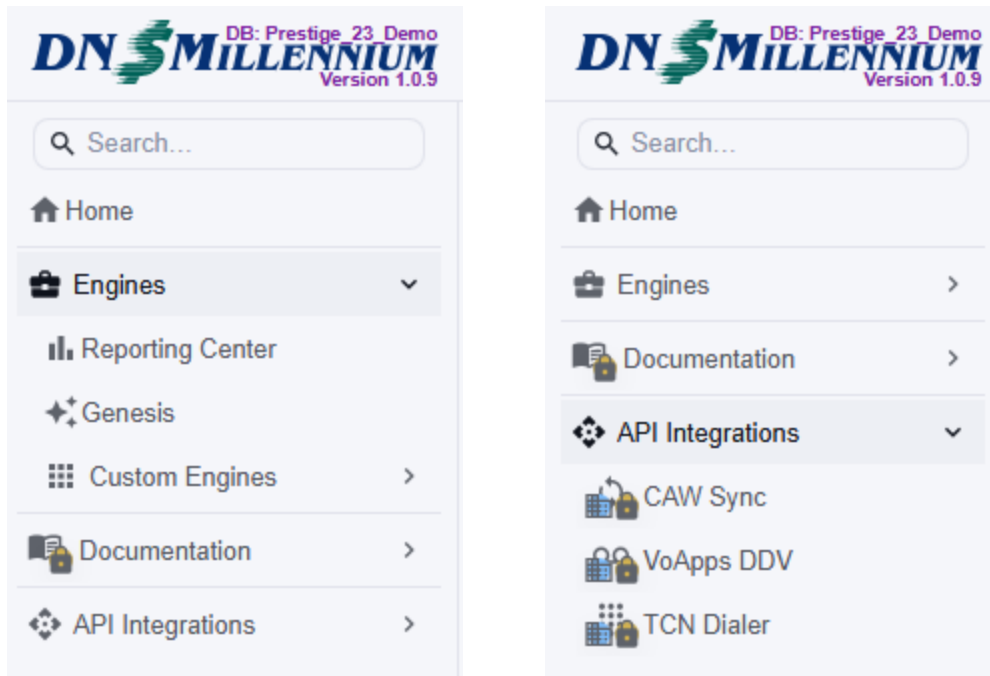

Development of the integrated DebtNet\$Millennium platform

The Millennium platform, integrated within Debt\$Net® Prestige 23, is a modern, secure, and adaptive system. It uses cutting-edge software languages and a component-wise, adaptable architecture that is maintainable and secure by default. Launched from a menu selection within Prestige 23, DebtNet\$Millennium centralizes reporting, operational integrations, and secure configuration.

Millennium engines offer report building functionality, a reporting center, mass data updating and another approach to mass account upload. With Millenium engines, future technology options are endless.

Millennium API Integrations will grant the ability to quickly interface with new products, services, and partners, utilizing new technology quickly, staying ahead of the pack. We have already completed API development with Applied Innovation and VoApps. An integration with TCN is wrapping up and more are on the horizon.

Creation of the Genesis Engine – industry leading data access

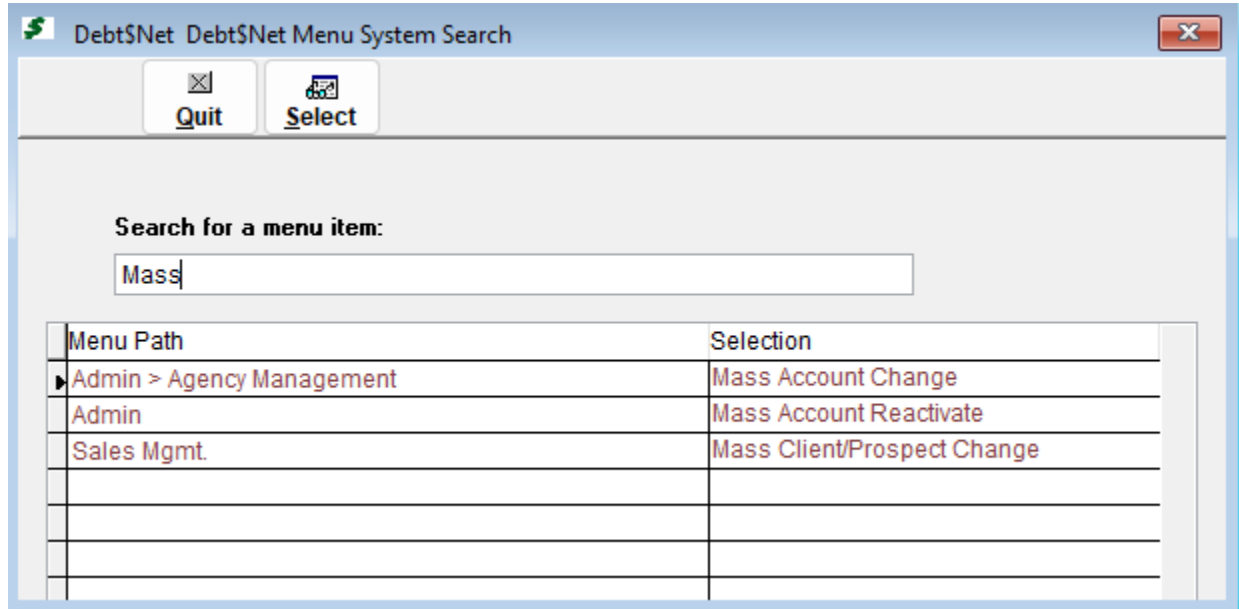

The Genesis Engine is the modal that opens whenever a feature in DebtNet\$Millennium needs to answer one question: “Which records?” You pick a base table, build filters, optionally pull in data from related tables, choose and shape the columns you want, then preview and export the matching rows. Under the hood, the engine compiles your selection into a single safe, parameterized SQL query – you never write SQL.

GE is the shared engine behind a growing set of DebtNet\$Millennium features: ad-hoc reporting, the VoApps campaign builder, the TCN pool builder, mass-update previews, and any future features that need to scope work to a subset of accounts, debtors, clients, or other objects of interest.

Prestige 23 New Feature Spotlight

Menu System Search Feature

Nearly 40 years of development leads to many features and capabilities within Debt\$Net®. More features also equal more menu selections – some of which you may only use a couple times a year. We have all been there, you know what feature you want to use but just cannot remember where it resides. Hunt no more with our new Menu Selection Search Feature.

Menu Path	Selection
Admin > Agency Management	Mass Account Change
Admin	Mass Account Reactivate
Sales Mgmt.	Mass Client/Prospect Change

With a simple Ctrl F from the wallpaper, the Debt\$Net® Menu System Search form will come up. Start typing the name or key word of the menu selection you want to access, and matches will begin to auto-populate. From there it is a simple click of the mouse on the desired selection in the column on the left.

Menu security levels are also integrated into the Menu System Search. Unauthorized user levels will not be able to access menu selections above their security settings.

Interested in gaining the ability to search for menu selections? Prestige 23 users need just to reach out to technical support for installation. Not on Prestige 23 just yet? Reach out to Julee Warner at julee@debt5.com or 1-800-552-8397 to have an upgrade package designed for your needs and budget.

Debt\$Net® at The ACA Expo

Stop by booth #402

Dave and Julee will be in Orlando, Florida July 22nd to the 24th attending the ACA 2026 Annual Convention and Expo. Please stop by, say “Hi”, and check out DebtNet\$Millennium and our new features.

The Debt\$Net® Newsletter is published by The Computer Manager and is distributed to our clients and prospective clients. Please direct questions or comments to our editor, Julee Warner via one of the contact options.
